My website

SEBASTIEN GODBOUT

OBJECTIVE   To build my career in either software or game development by gaining technological experience, honing my programming skills, and making strong collegial relationships.

EDUCATION   **WESTERN UNIVERSITY, LONDON, ONTARIO – SEPT/18 – JUNE/22**

- **Graduated with an Honors Specialization in Computer Science Bachelors and a Game Development Minor.**
- Java: Utilized throughout my four years at university.
- Python: Used in depth during the first year as the introductory language.
- C++: Was the main object-oriented language used for several classes.
- C# and Unity: Present in all my courses for the game development minor with multiple game projects.
- C: Taught alongside C++ as an alternative language with different functionalities.
- Github: Utilized often for version control when working with other group members on games or group projects.
- PHP, HTML, CSS: Learned for website building. Used to create an interface to allow users to access an SQL database. Also used to create my personal website.
- SQL Databases: Reused in multiple projects in tandem with html, php, and css. It elaborated on storing, deleting, adding, and maintaining a database of organized information.
- Linux Systems: Used throughout my education to traverse files, hand in projects, manage sql databases, and host applications.
- TCP/IP Networks: Was the topic within a networks class which taught the way routers and the internet receive and send encrypted request using IP addresses.

PRINCE OF WALES SECONDARY, VANCOUVER, BC – SEPT/13 – JUNE/18

- Graduated with BC Honor Role
- Scholarship for academics and physical education
- Grade 10 Trek outdoor program
